Demo: Install Node.js And Visual studio Code

Step 1: Go to https://nodejs.org/ and downloaded the latest stable version of Node.js

Step 2: Start the Installation Wizard

- Double click on the Installation Wizard you have just downloaded (Usually in the Downloads folder)
- Once the Installation Wizard Starts, click on Next
- Go through the Node.js License and Click on the "I Agree" checkbox. Then Click Next
- Select the folder path to Install Node.js. The default is C:\Program Files\Node.js (This is recommended)
- Click Next to Proceed
- Then, Click Install to proceed

- Wait while the Installation completes

Step 3: Install visual studio Code

- Download and Install *visual studio code from*
